BEER STORY

- Our Imperial Beer Series is a true brewer's playground. The series highlights big, bold flavors from hop experimentation, larger-than-life malt bills and radical recipe development.
- Playcation makes use of the finest organic, local, fruit-forward hops we could find so that every sip feels like a tropical vacation.

TASTING NOTES

- Calypso, Azacca, and Simcoe hops provide a hop profile with no bitterness akin to a complex fruit punch medley that lingers long after the first sip.
- Loads of wheat and oats add a velvety texture without upstaging the hops.
